

Outing (Zoo)

Event Date: 09 November 2023

Nesting Daycare was very busy in November. We celebrated school day and went on a field trip to the zoo. Our trip to the zoo started with a bus ride which added to the excitement as quite a few children had never been on a bus before. We were able to see more animals than ever before because they were out due to the cool weather. Some of our favorite zoo animals:

The male lion was one of the first animals we saw. He sat there lounging the whole time we watched. At times, he even turned to look at us. The children who had never seen a real lion before were amazed!

The reptile section is always a “must stop” for the children. Snakes are their favorites. Lots of “oohs” and “aahs” as we walked along with the enclosures. The giraffes created much curiosity, the children in awe of the tall lanky animal!

After a busy morning at the zoo, the kids were tired and hungry and gobbled away their snacks on the bus headed back to nursery in Jumeirah lake towers.
